Portfolio: <https://gallolopez1.github.io/Portfolio/index.html>

## Summary

Full Stack Web Developer with a background in Architecture, Design, Business and a life-long dedication to learning. Effective at combining creativity and problem solving to develop user-friendly applications. Curious by nature and known for strong wit and attention to detail no matter the complexity of the project.

## Technical Skills

**Languages:** HTML5, CSS3, Javascript, JQuery, Bootstrap, Node.js, MySQL, MongoDB, Express, Handlebars.js, ReactJS, Git, ORM (Sequelize / Mongoose) English, Spanish, French and German

**Applications:** Microsoft Suite, Google Suite, Adobe Suite, AutoCAD, Revit, Rhino3D, Enscape, Vray, Cinema4D

## Projects

### Keep

**Live:** <https://ancient-depths-61432.herokuapp.com/>

**Repo:** <https://github.com/gallolopez1/keep>

- Keep is a MERN stack app using GraphQL to track all of your To-Dos and all of your accomplishments. Simply sign up and use this app regardless of your device to keep track of all your tasks.
- Responsibilities: organized app files, started the logic and created a professional looking front end to create a mobile friendly app with some simple yet elegant CSS.
- Technologies used: MongoDB, Express, ReactJS and Node.js, Apollo Middleware, GraphQL, JWT and Bootstrap.

### The Hype

**Live:** <https://immense-springs-30161.herokuapp.com/>

**Repo:** <https://github.com/gallolopez1/proj-02-TheHype>

- The Hype is the newest website for today's trends. Login and you can post, edit and comment other posts in The Hype community!
- Responsibilities: Took leadership and ownership of the app from start to finish.
- Technologies used: MYSQL2, Javascript, CSS, Handlebars, NodeJs, express sessions, bcrypt, dotenv, BULMA - CSS Framework and MULTEER NPM - Middleware for handling multipart/form-data, which is primarily used for uploading files.

### Flight for Tonight

**Live:** <https://mloercher.github.io/flight-for-tonight/index.html>

**Repo:** <https://github.com/gallolopez1/flight-for-tonight>

- For all adventurers out there, we have created a simple, easy to use app that filters flight tickets based on your destination and the amount of money you want to spend.
- Responsibilities: main JavaScript functions, API research, plus framework and styling.
- Technologies used: Miro, HTML, CSS, JS, API - Duffel, Plugins - Fuse.js, fuzzyComplete, select2, Framework - Materialize and JQuery.

## Experience

### Architect Designer Rockwell Group

2020 – Ongoing  
New York City, NY

Had the opportunity of working hand in hand through concept, schematic and design development with a diverse group of architects, interior designers, project managers, studio leaders, partner and founder of the firm.

#### Key Accomplishments:

- Participated in the Young Architect Competitions having received a Gold Mention for reimagining the Marina di Loano.
- Held meetings internally and externally with clients to make sure design intent was aligned with all parties and timelines were kept on track.
- Worked on multiple projects that ranged in scope and location. From educational architecture (JHU Student Center) to interior design (Press House Lobby, DC), hotel resorts (Vidanta, Mexico), music venues (Jones Beach Theater, NY), restaurants (Din Tai Fung, NY) and mixed-use commercial developments (Shinsegae Art & Science, Daejeon).

### Freelancer Self-Employed

2018 – 2019  
Guadalajara, MX

Web Development for Deincokwi and Applegate Realtors while working as a freelancer, before having any technical knowledge in coding. <https://www.deincokwi.com/> | <https://www.concept180pv.com/>

#### Key Accomplishments:

- Negotiated additional services with Applegate Realtors and that relationship continues to this day.

### Architecture Intern AHA Universo

2014 – 2014  
Guadalajara, MX

Worked at the innovation department. I was in charge of keeping track of the virtual and physical library, I did research on new architecture tendencies that could be useful for future projects and I helped develop client presentations.

## Education

### Coding Certificate: Columbia University, New York City, NY

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Node.js, MySQL, MongoDB, Express, Handlebars.js, and ReactJS.

### Business Certificate: Columbia University, New York City, NY

One-term Certification of Professional Achievement covering the following subjects: Introduction to Finance, Corporate Finance, Marketing and Negotiation.

### Bachelor of Architecture: Tecnológico de Monterrey ITESM, Guadalajara, MX

Awards: Tecnológico de Monterrey's Honorable Mention of Excellence (Summa Cum Laude) | EXATEC Generation Leader.
